AMERICA - SHORT HISTORY

Indigenous people of North America

- They formed many diverse communities and tribes all over the continent

- Some of them ware hunter-gatherers and some lived a sedentary lifestyle

- Number of them has dropped after Europeans have arrived mainly because:

  - Europeans brought disseizes which killed the natives
  - Native Americans ware killed by European colonizers

- Many Indigenous people resisted and continue to preserve their culture today

Jamestown

- It was the first permanent English settlement in what later became United States

- Was founded in **1607** by the Virginia company

- It faced many problems including disease, hunger and conflict with native people

- It survived and became the first successful English colony

Manifest destiny

- It was a belief that the US was destined to conquer the American continent and that the settlers had received the right to do so from God

- Fuelled later wars and the idea of a “greater America”

American War of Independence (1775-1783)

- Colonies fought against the British rule to gain independence from them

- Key causes:

  - Opposition to British taxation imposed on Americans combined with the lack of their representation in the British parliament
  - Desire for self-government

- As a result American states became independant

Declaration of independence (1776)

- Announced the colonies’ independence from Britain

- Stated that all people have natural rights like life, liberty and pursuit of happiness

- Influenced democratic movements worldwide

The Constitution (1787) and Bill of rights (1791)

- The constitution set up the federal government and the system of checks and balances

- The bill of rights contained the first 10 amendments protecting individual liberties

The most important amendments
